Hirani is providing the SCA Project Officer for the construction of a new four story building and cellar, consisting of a new auditorium, gymnasium, library, and District 75 Special Education facility. Classroom space is also being built for 1,144 students.

The building will actually house two separate high schools that share the facilities. Construction includes a vapor proof cavity wall clad with bricks in three color variation. This is a steel frame structure with cmu block and brick. The building was designed by R.M. Kliment & Frances Halsband Architects.

### **Project Highlights:**

- New Construction
- Two High Schools
- New Gymnasium, Library & Auditorium
