CONSTRUCTION COST:
\$1,300,000

COMPLETION DATE:
2003

Hirani was the general contractor on this project for abatement of existing asbestos containing floor tiles and asbestos floor tile mastic and providing new Vinyl Composite Tile flooring for an area of around 48,000 square feet.

The installation was at the Taconic Correctional Facility / Bedford Hills Correctional Facility, medium security prisons for women. The building except for the work area is occupied during the execution of the work. The work was phased at four different buildings. Abatement work and tiling was rotated for efficiency and to minimize disruptions and relocation at the site.
